SELECTMEN'S REPORT

To the Citizens of the Town of Goffstown:

This is 1960 A. D., a year that should be quite interesting. We need a new school and a new sewer and road on High Street. We already have applied to the State for the 20% of the cost of our Disposal Plant and Interceptors which should be approximately $55,000 (Fifty-five Thousand Dollars). We also have been advised that we would get State and Federal aid on the High Street sewer, so eventually we will have a sewer and a new street in that location.

The Selectmen spent many hours this last summer in reviewing our real property. We felt that if we took a sound value of all property, which would be 100%, we could come up with a higher valuation and a lower tax rate. Not only would we save on veterans' exemptions but would not scare away industry and people desiring to live in our community. This year in our Town Report you will find a listing of all property, the owner, the valuation, and the tax paid.

We realize that everyone has an idea on the value of property but we believe that we have been very conservative and on the low side, so the only question would be one of equalization and there again people would have varied ideas as to its true value.

Our industries have been very busy this past year—namely Kendall Hadley, the Granite Board on three shifts, the Feather Plant on two shifts and the Karanikas Poultry plant which is processing ten to fifteen thousand birds a day. The four combined employ at least three hundred. They have had their troubles—the Granite Board with sawdust, Karanikas & Sons with poultry waste, and the Feather Plant with a distinct and obnoxious odor, but they are trying to solve their respective problems and assure us that everything will be under control in the near future.

The largest project at the present time is the construction of several buildings at St. Anselms College which when completed will cost approximately Four Million Dollars—certainly an asset to any town.

We also have a new building at the Villa Augustina which after completion will give them a gymnasium and other rooms sorely needed.

When our own school problem is solved and the difficulties of our present industries ironed out we can rest assured that next year will be one of continued progress.

The moderator read the following letter for the record:

March 6, 1959

Mr. Laurence E. Whitten,
South Mast Road,
Goffstown, N. H.

Dear Mr. Whitten:-

Re: Pingree vs. Selectmen Town of Goffstown

This letter will report to you what transpired at Superior Court, Nashua, New Hampshire on the above case this morning.

As you know, Mr. Pingree filed a petition against you and the other selectmen of the Town asking the court to issue a writ of mandamus directing you three selectmen to appoint a town manager and to fix his compensation. This office filed an appearance on behalf of the Selectmen and submitted an answer to Mr. Pingree's petition.

The court read the petition and answer filed in this case and listened to the comments of counsel representing the parties. Thereupon, the Judge advised Mr. Pingree that he was not disposed to grant Mr. Pingree's petition and informed all counsel that he would either dismiss the petition forthwith or transfer the case to the Supreme Court without any ruling by him.

In the light of these observations by the Court, Mr. Pingree suggested that he preferred to have the matter transferred to the Supreme Court without a ruling. At the present time, he has indicated to us that he is going to follow this procedure.

The result of this action, if carried through by Mr. Pingree, means that the question will ultimately be determined by the Supreme Court of the State of New Hampshire. As I understand the facts and the applicable law in this matter, I believe the Selectmen are without any authority to employ and pay a town manager in this present situation.

I am enclosing two extra copies of this letter in the event you desire to make them available to your associates.

Yours very truly,
Kenneth F. Graf

REPORT OF LIBRARY TRUSTEES—1959

This has been a year of increased interest and development of the activities of your library. We have tried to provide fuller service and assistance to the citizens of all parts of our town, particularly the students.

The Encyclopedia Americana was added to our growing reference section.

National Library Week, April 12 through 18, was observed with the theme "Wake Up and Read" with an active poster contest for the 5th and 6th Grades and Junior and Senior High Schools. Several story telling periods were undertaken through the Children's Room as well as a Children's Reading Club during the summer under the direction of Miss Jane Backus.

With the assistance of Miss Doreen Harper, State Library Consultant, a comprehensive program of reclassification of all volumes was started to simplify our book reference system. This has involved a great number of hours of faithful work on the part of our capable Librarian, Dorothy Vickery, and several volunteer workers.

The formation of a Friends of the Library group marks a big step forward in a program of trying to increase the interest in and the use of your Library.

In addition to the sizeable new book purchases for the year, many more have been made available through active planned programs with the Bookmobile and State Library.

The Trustees wish to extend sincere thanks to the Shirley and Unity Clubs for their thoughtful gifts of money and to the many interested friends who have contributed books during this year.

The Library is now open from 3:00 to 8:30 P.M. on Monday, Wednesday and Friday.

The Trustees and Staff look forward to the opportunity to serve even more of you during 1960.

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note.

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners. 10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple—

1. Before burning, secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles—use your ash tray.
5. Don't burn at home—Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of acres burned	4
Number of permits issued	373

REPORT OF BARNARD PLAYGROUND TRUSTEES

Activity at Barnard Playground reached a new high in 1959. The summer program under the direction of Norton Phelps, Jr. and Priscilla Philbrick was well received. The annual Special Events Week attracted almost one hundred children of all ages. Prizes were awarded for attendance and competitive sports.

The G.P.A. Carnival, which featured fire works as an added attraction, was well attended. The American Legion Fair, with Chicken Sizzle and Band Concert, attracted both young and old. The Firemen's Muster, sponsored by the D. A. Taggart Volunteers, drew the largest crowd of the season and promises to be an annual affair.

The new toilet facilities were completed early in the spring within the appropriation allotted. The Trustees wish to thank all contractors who bid on the project, and Bob Burnham, in particular, who furnished plumbing specifications free of charge.

With the 1960 season in view the Trustees wish to make the following recommendations:

1. A special appropriation be requested in the Town Warrant for the construction of an additional tennis court. The forming of a Tennis Club by High School students and free tennis instructions by qualified teachers have stimulated interest to such an extent that one court is quite inadequate.

2. The grand stand needs replanking to comply with insurance company recommendations. The Trustees feel that this is a capital outlay and the money should be raised by a special appropriation.

3. That the Town consider purchasing a tract of land adjacent to the Barnard Playground, to the rear of the tennis courts. Said tract of land is about three to four acres and has a right of way through the playground. The Trustees feel that if this land was used as a housing development, traffic through the playground would be detrimental to the safety of the children.

Let's make 1960 another banner year. Only with the continued cooperation of the people of Goffstown can we best serve you.

Respectfully submitted

GOFFSTOWN SCHOOL BOARD ANNUAL REPORT

The School Board has had an extremely busy and fruitful year in its attempt to improve the academic and scholastic standards in Goffstown, and to develop a long-range program to plan for and take care of the educational needs caused by the rapid growth our town is experiencing.

Last year the voters adopted the recommended salary schedule for teachers. This has already paid off very rewardingly. We have been able to be much more selective in our teachers and are now attracting many fine teachers from all over the state as well as from several surrounding states.

You also allowed us to equip our schools with some of the many necessary educational tools of today's world so that our children are starting to receive the benefits of above average teaching. The willingness of the taxpayers to recognize the need of a salary schedule and the need for proper educational tools has helped the Goffstown School District to build a teaching staff who is proud to work for the children of our town, and who has demonstrated this by giving unselfishly many, many extra hours of their time toward the development of our youth.

It is our earnest hope that continued plans for periodic replacement and additions of equipment will continue to be supported by the taxpayers to avoid excess expenditures in any one year.

A nationally recognized and recommended standard budget procedure has been adopted, and now, in its second year, is beginning to demonstrate that by the use of centralized control in purchasing and by the practice of preventative maintenance of our physical plants we have been able to more than hold the line.

The taxpayer should realize that the teachers' salary schedule has one more year to go before all teachers are on scale. This single item is the only sizable increase in the budget. Once the schedule is reached there will be a demonstrated levelling off on salary increases.

During the past year the School Board suffered a defeat in its recommendation for both a Cooperative School and a new High School of our own. In order that our students do not suffer while further study is made of our school housing problem, preliminary arrangements are now underway to commence adding rooms to the Village Elementary School to take care of the present pressing space problems. In addition, a Goffstown School Advisory Group has been appointed, made up of 18 members from all sections of town, to make a thorough comprehensive study of our school housing program and to make recommendations to the Board.

The School Board would like to take this opportunity to thank all citizens who have worked with and assisted us during the past year. The response for assistance has been more than gratifying and reflects in the continued interest in the people of Goffstown towards their schools and the education of their children. In addition, the Board wishes to express its appreciation to the superintendent, helping teacher, teaching staff and other school employees for a job well done.

The Goffstown School Board

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Goffstowns

Public education is considered by many to be the most important single function of government. We have schools because we have children who need education. The physical and mental health and development of our children is our basic need—for their sake and safety as well as the welfare of the country.

The success of a school is measured by the academic progress of the pupils and to the extent that it fulfills an underlying philosophy of the American public school system which emphasizes the development of the individual to the limit of his potential as an individual, and as a future citizen in a democracy.

The advent of a new scientific age impressed upon our society and forced upon us by Russia, has increased the demands made upon education.

The greatest bulwark against communism is a well educated populace; the greatest investment for our children is a good, sound education.

RECENT ACHIEVEMENTS

This is the report of the second year of the schools with the present superintendent. Due to your appropriations and support we have been able to make progress in these areas this year.

The results of the work of the Helping Teacher are recognizable, not only in the correlation and improvement of teaching methods, but through standardized test scores demonstrating that our children compare favorably with the national grade norms in both grades and subjects. Curriculum evaluation is continuing and in certain subject areas, study guides to aid the teacher in making his presentation more effective and interesting, are currently being prepared. Teacher visitation within the Union has been introduced in order that some of the excellent teaching techniques of some of our master teachers may be disseminated on both the elementary and secondary levels. Seminars have been held, in which teachers instructing in the same subjects have exchanged ideas and methods of better subject presentation.

The basic testing program started last year is gradually being enriched. We are fortunate to have available to us within the Union, the services of two trained experienced guidance counselors teaching at the Goffstown High School to assist our teachers in both this area and in Guidance.

The purchase of library and reference books has been increased this year and this developmental program is in its second year phase. Books purchased in this program are supplemental to the Town Library and the State Circulating Library. Care is exercised by the district not to purchase duplicate copies of books which are owned locally. It is interesting to note that during the past year, school children have circulated more volumes from the town libraries than formerly.

The Elementary School library program was started last year with an excellent budget appropriation and was housed in the library of the Village School. The books in the library, while housed in one school, are to be circulated among the elementary schools. Faculty and pupils make recommendations to Miss Ruth Powers, the

librarian coordinator, and before any books are ordered she confers with the Superintendent, Helping Teacher and town Librarian. Every book purchased must answer a direct need for our system and should not be a duplicate of one already in the local library, unless it answers a specific need.

With Mrs. Helen Gutterson's early and untimely passing, and at the request of her family that donations be made to the library fund, this program was given a huge impetus, and donations are still coming in.

Friends and supporters of the schools join with the Board and myself in a sincere "thank you" to everyone who participated in this endeavor.

Our buildings were inspected by a representative from the State Fire Marshal's office and many of the suggestions were completed during the past school year. Some larger and more extensive ones are incorporated in the new budget.

It may be of interest for citizens to know that your school district belongs to a supervisory union, comprising of about 1850 pupils, 83 teachers and 50 other employees; that the combined operating budget of all five districts for the current year is slightly less than $800,000. Many supplies are now purchased upon a Union basis in order to achieve a substantial saving and others are advertised for competitive bidding. This past year in which this practice was carried on for the first time, resulted in a financial saving to the Union of a four figure number.

Volume purchasing is not the only benefit to be derived from a close knit supervisory union. This medium makes it possible for a local district to be able to supplement some of its educational tools of learning, with loans of purchases from other districts. For instance, this year all districts within the Union plan on purchasing a number of film strips in either science or mathematics. By controlled ordering of titles, each district will be able to benefit from this purchase, not only the fewer titles it purchased but the ability to utilize other film strips from the other four towns upon a loan basis. Thus from one investment, a five fold benefit may accrue.

During this past year we were able to supply your schools with an adequate supply of books, general supplies and tools of learning, which allows a good teacher to be more effective. Any artist needs tools.

Title III of the National Defense Act stipulates that local districts may be reimbursed 50% for approved expenditures of certain items to implement the teaching of science and mathematics in grades 1-12. The intent of the act is to have the local district reinvest this money in more educational tools rather than to be used as tax relief. Some of these items are included in your proposed budget.

It is a pleasure to report that the local claim for title III reimbursement for the current year has been approved for $4,475.16.

Next to pupils, the most important item in a school is a faculty composed of happy, contented and capable teachers. It takes time and effort to assemble such a staff. Many factors enter into this development; such as salary, morale, spirit, security, size of classes, etc. Salary can never be minimized, but neither may a price be set upon personal happiness and contentment.

If our schools are to be what we want them then we must see to it that they are staffed with the people who fit into the above delineated criteria. It is a distinct pleasure to report that the local staff is to be complimented.

NEEDS

Any good system never can become complacent; some improvement can always be made. Evaluation programs must be continuous.

To supplement what we are already doing and to make it more effective we would like to see more individual curriculum enrichment and acceleration, both for the gifted and the retarded pupil.

In this connection, the acquisition of a remedial reading and an art teacher on a Union basis would strengthen those areas of the curriculum. We should investigate fully the possibility of forming a special Union class in the very near future for the mentally retarded pupils.

The need for experienced and qualified teachers is always with us and can best be coped with by adequate salaries and good working conditions.

Our most pressing need is for space—both immediately and upon a long term basis.

For the past number of years, Goffstown has been faced with this problem and has made important and costly building decisions—the remodeling and refurbishing of the White School, the addition onto the High School and the erection of a new elementary school. These alterations and additions remedied somewhat but they did not solve the long range program which was indicated by our rapidly growing enrollment. Consequently, we are still faced with a critical shortage in housing facilities.

In seeking an answer to this space problem, the services of a study group were utilized and their recommendations, along with that from a nationally known and recognized school consultant, were rejected by the voters.

Goffstown needs more classroom space and needs it desperately. Double sessions result in double the expense with half an education.

I am convinced that with proper cooperation and willingness, a solution to our housing situation will be found.

Will it be of a short term or a long range basis? Again, as it should be in a democracy, it will be decided at the polls.

May I take the opportunity to thank the School Board and citizens of Goffstown for their cooperation and I hope that we will merit your continued interest, cooperation and support in the future.

Respectfully submitted,

Charles H. Minnich,

Superintendent of Schools

Mrs. Gutterson was an able and devoted teacher, highly respected by her pupils and her colleagues.
